

November 14, 2016 - Meeting Minutes

Attendees:

Brendan Foley
Chris Bourjaily
Kathy Cane
Mike Magee
Michelle Kulovic
Michelle Antonietti
Marty Mulcrone

Treasurers Report

Other than gym rentals trending higher than previous seasons, everything is one track.

Basketball Report

There were mixed feelings of the independent evaluation process for boy's basketball. A hybrid approach of having the coaches involved in the process was discussed but it was generally agreed that would pollute the independence of the process. It was tabled for further discussion due to time constraints.

Girl's basketball was contemplating using evaluators this year. It was agreed that it would be most effective if it became the standard for all teams that divide between A and B.

Volleyball Report

VB has used Independent Evaluators for last 3 years and the process has worked well. Those evaluations had just been completed and the teams were set.

Football Report

All JV jerseys were returned and deposits returned to families. There were 2 intro to football sessions held in the fall. There were 13 kids at the first session with a smaller amount at session 2. A third session is planned for the spring.

It was agreed that a message announcing and inviting all School and Religious Ed athletes to the football program should be placed in the bulletin in early January before people started making team choices.

Athletic Director Update

The Track and Field coordinators are dividing what used to be under one person to multiple people for the 2017 season.

Cardinal Pursuit

Is set for January 20th at 7:00 PM.

New Business

Mike Muldoon suggested that basketball basic skills should be part of the PE curriculum before players start inter-scholastic sports in 5th grade. Other schools such as Visitation do this and Mike has noticed the difference with the 5th grade boys. The idea was that basic skills such as dribbling, passing as well as knowledge of the game could be taught in gym with a written test to ensure that the skills were learned.

Next meeting - January 10, 2017
